

# Dress For Success

If you are serious about doing *big* business and building a strong team, we need to do a check up from the neck up and back down again! Reminder: you do not *make* a great team, you *find* them ! As a team builder it is your job to provide an environment where they can see the abundance and grow personally and professionally on their way to the top! REMEMBER-your team is watching what YOU do! Are YOU professional at all times in YOUR business?

- How is your hair? Has anyone said lately, What a great cut! If not, go to the best stylist you can find and get it done!
- What is the look of your best business suit? Is it out date? Does it fit? You are making a statement ... what is it? I'd rather have one suit that is 'slammin,' than a closet full that doesn't make me feel like a million!
- Shoes and hose ... Are they comfortable? Attractive? Good condition?
- Make Up ... who is especially good with product in your area? Ask for advice or have a sister consultant do a makeover. Make sure you look your absolute best!!!
- Personal ... have you had your teeth cleaned recently? What do your fingernails and toe nails look like? How is your breath?
- What does your ink pen look like? Brief case or folio? Purse?
- What are your business card being carried in? How accessible are they?
- Are your earrings outdated? Cheap? Too big? Other jewelry? Too much, too little? Go for classic!

Take an honest look at yourself and ask the opinion of a 'classy' friend who will tell you the truth. Appearance is the first element a person has to judge whether she wants to do business with you. You will get a chance at 'heart' later, but first your look will sell or send! Take a close look at yourself and dress for success
